PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

We are recommending that your Board award these construction and maintenance services contracts and authorize the Director of Public Works, or his designee, to execute the contracts and establish the effective contract dates following receipt of approved bonds and insurance filed by contractors for each of these projects.

The enclosure for each project includes the project description, the call for bids and bid opening dates, a tabulation of bids, and financial information. The certified record of receipt of bids and the original bid proposals for each project are also enclosed, including addenda to the contract specifications for Project ID Nos. APT4080166, APT5080430, FCC0000723, FCC0000861, FCC0000954, FCC0000965, FCC0000986, FCC0000989, FCC0001013, FCC0001017, and RDC0014797.

The recommended construction and maintenance services contracts are necessary to execute Board-directed and approved Public Works projects in support of operational missions. Your Board's approval of the recommended contract awards and our subsequent execution of the contracts will ensure the timely completion of the projects.

Implementation of Strategic Plan Goals

The award of these construction and maintenance services contracts is consistent with the County Strategic Plan Goal of Service Excellence since these contracts will provide improved infrastructure to better serve the public.

FISCAL IMPACT/FINANCING

The enclosure for each project includes the amount of the recommended contract as compared with the engineer's estimate and the other bids received.

These projects are included in the 2005-06 Department of Public Works Budget. The enclosure for each project includes more detailed fiscal and financial information.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

Recommended contract awards are to the lowest responsible bidders in accordance with the California Public Contract Code and your Board's directives.

On October 27, 1981, your Board adopted a program for the use of small Minority and Women-owned Businesses (MWBES) on Federal- and State-funded highway construction contracts. Companies meeting these requirements are certified by the State as Disadvantaged Business Enterprises (DBEs). An overall goal for subcontracting portions of the work to DBEs is established for each project. Contracts are recommended for award to the lowest responsible bidder who meets the goal or documents a good faith effort to do so in conformance with the program.

We have also developed an outreach program to encourage all qualified contractors to participate in the bidding and contracting process on our projects. Under this program, we place notices of upcoming bids in local and minority newspapers throughout the County. These notices indicate that copies of plans and specifications are available at specified libraries and the Public Works Headquarters building. This allows interested contractors to view the plans and specifications at convenient locations. We also provide telephone numbers (including one for Spanish-speaking contractors) to obtain further information on bidding and subcontracting opportunities.

To further increase contractor awareness of contracting opportunities with Public Works, each of these projects was listed on the County website for upcoming bids.

The State Labor Code requires contractors to pay prevailing wage rates to all persons employed on public works construction contracts. These rates are determined by the Department of Industrial Relations and include contributions for fringe benefits such as vacations, pension funds, training, and health plans for each employee.

As required by your Board, language has been incorporated into the project specifications stating that the contractor shall notify its employees, and shall require each subcontractor to notify its employees, that they may be eligible for the Federal Earned Income Credit under the Federal income tax laws.

The contracts will be in the form previously approved by County Counsel. We will also review and approve the faithful performance and payment bonds filed by the contractors.

ENVIRONMENTAL DOCUMENTATION

On June 29, 2004, your Board approved the Program Environmental Impact Report for Project ID No. FCC0000861.

On January 25, 2005, your Board found that Project ID No. RDC0014710 is statutorily exempt from the California Environmental Quality Act as an emergency project per Section 15269 of the Act guidelines.

Each of the remaining projects was found to be categorically exempt from the provisions of the California Environmental Quality Act at the time your Board called for bids. The specifics of these findings are included in the enclosure for each project.

CONTRACTING PROCESS

The contracts were solicited on an open competitive basis in accordance with the provisions of the Public Contract Code.

The project specifications contain provisions requiring the contractor to report solicitations of improper consideration by County employees and allowing the County to terminate the contract if it is found that the contractor offered or gave improper consideration to County employees.

Public Works has confirmed that all of the respective contractors are in compliance with the County's Child Support Compliance Program and the requirements of the Contractor Employee Jury Service Program. In addition, the contracts will include language requiring compliance with the Newborn Abandonment Law (Safely Surrendered Baby Law).

The project specifications also contain a provision that, should the contractor require additional or replacement personnel to fill employment openings, consideration shall be given to hiring qualified participants in the County's Greater Avenues for Independence or General Relief Opportunities for Work Programs.

To ensure that the contracts are awarded to responsible contractors with satisfactory performance histories, bidders are required to report False Claims Act violations, labor law/payroll violations, debarments, their civil litigation history, and information regarding prior criminal convictions. The information reported by all of the respective contractors was considered before making this recommendation to approve execution of the contracts.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

These construction and maintenance services contracts will result in improved public works infrastructure in the communities where the work is scheduled. Where appropriate, local residents and businesses will be informed that traffic and local access may be mildly disrupted during the construction. The proposed schedules for construction are included in the enclosure for each project.

PROJECT ID NO. FCC0000723, PROJECT NO. 9003, PARAMOUNT PUMP STATION UPGRADE (Cities of Long Beach and Paramount), Supervisorial District 4

TYPE OF WORK: Replacement of natural gas fueled engines, electrical controls, right angle gears, and pumps; reconstruction of the top slab of the transition structure adjacent to the pump house; and other appurtenant work.

CALL FOR BIDS DATE: April 18, 2006 (Synopsis 55)

BID OPENING DATE: June 1, 2006

BID SUMMARY:

Sole Bidder	S.S. Mechanical Corporation	\$3,362,025.03
	17631 Metzler Lane	
	Huntington Beach, California 92647	
	(714) 847-1317	

FINANCIAL INFORMATION:

Amount of estimate	\$2,562,115.00
Amount of recommended contract	\$3,362,025.03
Amount of recommended contract above estimate	\$ 799,910.03

The amount of the recommended contract is 31 percent above the estimate, which was based on recent average contract prices for similar items of work. However, we do not believe that readvertising the project will result in lower bids. Therefore, we recommend award of the contract to the lowest bidder.

Sufficient funds for this project are available to the Flood Control District for the Fiscal Year 2005-06.

MINORITY/WOMEN-OWNED BUSINESS ENTERPRISE DATA:

S.S. Mechanical Corporation has no MWBE subcontractors/suppliers under this contract.

ENVIRONMENTAL IMPACT:

This project is categorically exempt pursuant to Class 1, Subsections (e) and (l), of the revised County Environmental Document Reporting Procedures and Guidelines adopted by your Board on November 17, 1987, and Section 15301 (b) and (d) of the California Environmental Quality Act.

CONSTRUCTION SCHEDULE:

The project is to be completed in 120 working days; however, due to the length of time required to receive materials and equipment and the vital role of this facility to flood control operations, construction will not begin until April 2007. It is estimated that the work will be completed in October 2007. Local residents and businesses will not be affected during the construction.

FINANCIAL INFORMATION:

Amount of estimate	\$2,861,690.00
Amount of recommended contract	\$3,497,690.00
Amount of recommended contract above estimate	\$ 636,000.00

The amount of the recommended contract is 22 percent above the estimate, which was based on recent average contract prices for similar items of work. While the bid price is higher than the estimate, the bids received are competitive, and readvertising the project will result in increased contract administration costs and delay construction with no guarantee lower bids will be received. Therefore, we recommend award of the contract to the lowest bidder.

Sufficient funds for this project are available to the Flood Control District for Fiscal Year 2005-06.

MINORITY/WOMEN-OWNED BUSINESS ENTERPRISE DATA:

Mike Bubalo Construction Co., Inc., has no MWBE subcontractors/suppliers under this contract.

ENVIRONMENTAL IMPACT:

On June 29, 2004, Synopsis No. 108, your Board approved a Program Environmental Impact Report for the Sun Valley Watershed Management Plan. The Sun Valley Watershed - Tuxford Drain project is a component of the Sun Valley Watershed Management Plan and was fully evaluated in the Program Environmental Impact Report.

CONSTRUCTION SCHEDULE:

The project is to be completed in 200 working days. It is estimated that the work will start in August 2006 and be completed in May 2007.

3	Blois Construction, Inc.	\$1,525,000.00

+LSBE

The lowest responsible and responsive bid was from Atlas-Allied, Inc. The second lowest bidder, Clarke Contracting Corporation, is a Local Small Business Enterprise certified by the County of Los Angeles Office of Affirmative Action Compliance, and their bid was within the 5 percent or \$50,000 preference; therefore, we recommend award of this contract to Clarke Contracting Corporation in the amount of \$1,214,305.00.

FINANCIAL INFORMATION:

Amount of estimate	\$ 811,122.00
Amount of recommended contract	\$1,214,305.00
Amount of recommended contract above estimate	\$ 403,183.00

The amount of the recommended contract is 50 percent above the estimate. On May 9, 2006, your Board delegated to the Director of Public Works the authority to award the contract to the lowest responsive and responsible bidder within the estimated construction cost. The estimated construction cost was in the range of \$700,000 to \$875,000. However, the successful bid exceeded the authorized amount by \$339,305.00. A review of the estimate indicates that the prices estimated for mobilization, implementation of dewatering, installation of ten Filterra systems at different sites, and traffic control were significantly underestimated. We do not believe readvertising the project will result in lower bids. We recommend award of the project to Clarke Contracting Corporation in the amount of \$1,214,305.00.

FINANCIAL INFORMATION:

Amount of estimate	\$ 956,610.00
Amount of recommended contract	\$1,389,798.00
Amount of recommended contract above estimate	\$ 433,188.00

The amount of the recommended contract is 45 percent above the estimate. On May 9, 2006, your Board delegated to the Director of Public Works the authority to award the contract to the lowest responsive and responsible bidder. The estimated construction cost was in the range of \$850,000 to \$1,100,000. However, the lowest bid exceeded the authorized amount by \$289,798.00. While the bid is significantly higher than the estimate, the bids received are very competitive, and we do not believe re-advertising the project will result in lower bids. We recommend award of the project to Calex Engineering Company in the amount of \$1,389,798.00.

This repair is necessary as a result of damage caused by rainstorms of January and February 2005. We are seeking reimbursement for a portion of the project cost under the Federal and State Disaster Assistance Programs. Funding for this project is included in the Fiscal Year 2005-06 Road Fund Budget and the Fiscal Year 2005-06 Accumulative Capital Outlay Fund of the Los Angeles County Waterworks District No. 29, Malibu.

MINORITY/WOMEN-OWNED BUSINESS ENTERPRISE DATA:

Calex Engineering Company has two MWBE subcontractors/suppliers under this contract, yielding a proposed MWBE participation of 3 percent.

ENVIRONMENTAL IMPACT:

On January 25, 2005, your Board found this project is statutorily exempt from the California Environmental Quality Act as an emergency project per Section 15269 of the ACT guidelines.

CONSTRUCTION SCHEDULE:

The contract specifications require the work to be completed in 80 working days. It is estimated that the work will start in August and be completed in December 2006.
